

Netgem Launches its 'Videofutur's Fiber & TV as a Service' solution for a Great Cinema Experience in France

Courbevoie - September 2, 2015 – Netgem, the leading provider of #TelcoTV, announces today its 'Fiber & TV as a service' solution bringing great TV services and unlimited premium content at a super fast speed of 200 Mbps, thanks to FTTH technology.

The solution provides immediate access to the world of sophisticated TV (multicast bouquet, premium unicast channels, TVOD-SVOD-EST, Replay services, Content Apps, Multi-screen experience) in an unbeatable Time-to-Market of under 3 months. with a very flexible and cost-effective model.

"Netgem's ambition is to provide the best content and services at a very high speed and secure connection, enabling consumers to download at a speed up to 200 Mbps," said Mathias Hautefort, Deputy Chief Executive Officer at Netgem. "We believe our video content oriented plan will act as a catalyst for the development of very high speed solutions offered by local providers and public networks managers."
