For the quarter ending September 30, 2015, Netgem announces a consolidated revenue of € 23.3 million, bringing the consolidated revenue for the first 9 months of 2015 to € 60.6 million, a 4% growth compared to the same period in 2014.

Netgem expects the solid performance of its customers in all geographies to continue this year end, comforting the positive growth scenario on a full year basis.

In the last quarter, Netgem announced **#TelcoTV**, the new product name for its B2B managed Internet TV service offering. Several of its existing Customers are showing strong interest to improve their TV business models by handling to Netgem more of the software & services part of their current and future TV deployment, following in the steps of the successful EE TV reference deployment in the UK.

The Company is now focusing its innovation and commercial effort on developing **#TelcoTV**, by leveraging its core strengths : user experience, content aggregation and operational excellence.

In France, Netgem is continuing to adjust and focus the Videofutur business. In that respect, a new product, LaFibre Videofutur, has been launched in partnership with Alsatis, a high speed regional internet provider. This product will leverage the significant investments by underserved local communities in the French regions to develop fiber access to their residents.
